- NCDs (issues, policies, nursing practices, outcomes); i.e. chronic conditions

Nursing Development in a Global Context

- Task shifting
- Global nursing policy development, governance and leadership

Cross Cultural Capabilities

- Links to Nottingham Advantage Award materials
- Aru's work

Pedagogy for Global Health

- Theoretical perspectives
- Case studies
- International web-based collaborative learning
- Mobile learning
- Study abroad
- Working with international healthcare students

For each topic

General Subject Specific Resources

- Slide sets
- Web links
- Journal articles
- Books (reading lists)
- Video resources (e.g. You tube)

Resources Specifically for Teaching

- Curriculum resources (e.g. module outlines/handbooks; curriculum documents; lesson plans)
- Case studies
